

## ADMINISTRATION OF MEDICATION TO STUDENTS

Students may be required to take medication during the school day. The district shall establish procedures which may allow students to self-administer medications for diabetes and asthma/anaphylaxis. Other medications shall be administered by the school nurse, a registered Medication Aide, or other school staff member meeting the minimum competency standards for the Medication Aide Act.

### Self-Management of Diabetes and Asthma/Anaphylaxis

Upon completion of required procedures, the district and parent or guardian, in consultation with the student's physician, will develop a diabetes or asthma/anaphylaxis medical management plan for the current school year. The plan shall:

1. Identify the health care services the student may receive at the school relating to the condition;
2. Evaluate the student's understanding of and ability to self-manage his/her condition;
3. Permit regular monitoring of the student's self-management of his/her condition by an appropriately credentialed health care professional; and
4. Be signed by the student's parent or guardian and the physician responsible for treatment of the student's condition.

For asthma/anaphylaxis the plan will also:

1. Include the name, purpose, and dosage of the prescription medication prescribed for such student; and
2. Include procedures for storage and access to backup supplies of such prescription medication.

The parent or guardian shall sign a statement that:

1. The district and its employees and agents are not liable for any injury or death arising from a student's self-management of his/her condition; and
2. Shall indemnify and hold harmless the district and its employees and agents against a claim arising from a student's self-management of his/her condition.
3. Any injury to others as a result of the student's self-medication shall be the parents' responsibility

The student shall promptly notify the person designated in the student's self-management plan when the student has self-medicated.

The superintendent shall develop all necessary procedures and forms to implement the self-management plans and student disciplinary procedures regarding the misuse or threatened misuse of medications and supplies. The school will promptly notify the parent/guardian of such disciplinary action.
